## LEGISLATIVE CANDIDATES ARE BEING NAMED

### Number Seeking Party Endorsement Despite Remoteness of Petition Filing

Aspirants for seats in the legislative branches of state and national governments are making known their desire for the nomination at the primary election to be held April 8.

Although it is several weeks before petitions may be filed we have received announcements from two candidates for congress and two state legislators who have completed one term and are out for re-election.

From the 11th Senatorial district Representatives David I. Swanson and John M. Lee are seeking a return engagement.

Mr. Lee, elected in 1922 by a surprisingly large margin, has made a good record for his term, introducing early in the session the bill for a farm colony for mental defectives which was allowed to die in committee on the grounds of lack of funds despite the efforts of several agencies to force its passage.

He also served on the following committees: Agriculture, civil service, municipalities and senatorial apportionment. Mr. Lee has received the unanimous endorsement of the 18th ward Democratic organization for re-election.

David I. Swanson, republican candidate for re-election, served through the last session with a very creditable record.

He was an aggressive, active member of the committees on civil service, congressional apportionment, judicial department and practice, judiciary, military affairs and municipalities.

Mr. Swanson kept our readers informed of the activities of the session through weekly articles prepared by him and printed in these columns

Robert W. Daniels, an attorney residing in Beverly Hills, is being urged by friends to enter the contest for Republican nomination for congress from the third district. Mr. Daniels has served four years as assistant state's attorney.

Frederick H. Monroe, a resident of Palos Park, with offices at 538 S. Dearborn, is an announced candidate for the Democratic nomination on a platform "To remove barriers from business and burdens from labor."

## HIGH REGISTRATIONS ON JANUARY 24, 25

William R. Bowlin, assistant principal at Lindblom high, wants to make it especially plain to everyone that registration for the new semester will take place Thursday and Friday, January 24 and 25, at the school and any pupil not present will find extreme difficulty in registering.

On account of the exceptionally large number of pupils attending Lindblom from outside the district, it may be found necessary to take over one floor of the Henderson school at 57th and Lincoln sts, from February on, Mr. Bowlin stated.

"Among the Chicago high schools," Mr. Bowlin said, "we have a far greater number of students coming to us from other districts in the city."

Nearly forty fire alarms were received at engine house No. 51, at 6345 Wentworth ave, the headquarters of the twelfth battalion, during the forty-eight hours between Friday evening, when the thermometer began its sub-zero descent, until Sunday evening, when the temperature moderated.

Nearly all the fires were caused by overheated furnaces, defective chimneys, or the thawing out of frozen water pipes, and in most cases did but little damage.

One blaze, however, at the furniture manufacturing plant of Katz brothers, 6242 Wentworth ave, less than half a block from the engine house, caused a loss of more than $16,000 The fire was first reported from a box alarm pulled by a passerby at the corner of 63rd st and Wentworth ave. shortly after 3 o'clock Sunday morning.

The origin of the fire is undetermined, but it is believed that it started on the first floor and, aided by the highly combustible material stored in the building, which was of brick, two stories high, spread rapidly.

Francis Kenneally, a member of engine company No. 51, suffered cuts about the hand when he was caught under a shower of falling glass. Not until 3 o'clock Sunday afternoon, twelve hours after the alarm was received, did the last engine company leave the scene.

Firemen suffered considerable hardship fighting blazes in the severe cold Among Insurance Patrol 9 men, Captain William Enright, Charles Barnes and Joe Maloney had their faces badly frozen while going to a fire at 43rd and Calumet Saturday night.

## ABERDEEN SEWER WON'T BE BUILT IMMEDIATELY

### Committee Refers Project Back to Board; Foresee Indefinite Delay

There will probably be inaction on the Aberdeen st. sewer question for an indefinite length of time.

The city council committee on local industries, streets and alleys, following a public hearing at 10 o'clock Tuesday morning, referred the question back to the board of local improvements, with the recommendation that all laterals in the 44th ward, those at 48th, 50th, 54th, and 56th sts. connecting with the Ashland ave. and Wallace st. sewers, be taken out and a revised plan be submitted.

Discussion at the hearing, which lasted about thirty minutes, followed much the same lines as that at the preceding meetings. Then the committee went into formal session.

A motion made by Alderman Albert, to the effect that the committee concur with the board of local improvements in their recommendation that the sewer be installed as planned and construction started at the earliest possible date, failed to pass.

The motion which received the approval of the committee, with a favorable vote of 10 to 8, was made by Alderman O'Toole of the 14th ward. Three members of the committee were absent.

Aldermen Byrne and Moran, the only Southtown aldermen on the committee, voted in favor of referring the matter back to the board of local improvements

The hearing drew a smaller representation from both the opposition and favoring camps than have the three previous hearings.

Neither Kallos or Georgas, both of whom have been in this country for nearly ten years, are citizens, they told Judge Schwaba.

## MUCH BUILDING MARKS OPENING OF NEW YEAR

### Many Large Structures Under Way or Planned for District

Despite presidential election year forebodings, the outlook for building activities in the district during the year 1924 is particularly bright, if judgment may be formed from the number of larger building projects that are nearing completion, under way, or "in the wind."

Especially is this true of the Marquette Manor and Chicago Lawn sections and the Telegram has been kept busy reporting the various projects.

Scheduled for completion within a short time by its owners, Fitzpatrick and McElroy, the Chicago Lawn building occupies the entire 125x125 feet on the southeast corner of 63rd and Kedzie, with a double frontage on both streets.

In addition to the picture theater occupying the center of the building, there are ten stores, all of which are already leased, and on the second floor there will be an Oriental cafe with frontage on both streets.

The 1,200 seat theater, which will be known as the Marquette, has been leased for a term of years through Samuel Katz of the Balaban & Katz interests and will be operated on a plan and policy typical of their organization. The theater is designed with main floor and balcony, and by the use of Westfield green, Alabama marble and tile, the lobbies, foyer and auditorium are such that the entire structure will be one of the finest suburban buildings of Chicago.

The arrangement of the many exits together with modern emergency lighting allows the entire house to be emptied in two or three minutes.

H. L. Newhouse and F. M. Bernham, architects of the building, have provided the owners, with a modern fireproof structure of grey stone and pressed brick, an improvement which is a decided factor in the immense activity which has existed in this immediate district during the past eighteen months.

The continuous improvement of west 63rd st. is marked by another new corner building costing approximately $60,000, in process of erection at the southeast corner of Western ave. and 63rd st, owned by Thomas Gaynor. The original plans call for a one-story building with provisions for extending it up to two or three stories later, if not at the present time, it was learned from Heidel and Beck, contractors. Fronting 135 feet on Western ave. and 61 feet on 63rd st, there will be about eight stores, almost all of which are already rented, although the structure has not yet begun to rise above the ground level. Each store is to have its own separate steam heating plant. It is expected that the building will be finished and ready for occupancy in about two months.

A $55,000 brick building, with three stores and six flats, is being put up by J. Welichka at the northwest corner of Sacramento ave. and 59th st. The building has a frontage of 125 feet on Sacramento and 47 feet on 59th. This is an example of the high standards for buildings in Marquette Manor, finished throughout in hardwood and equipped with vapor heat.

The new, substantial, and up-to-date brick building at 6641 S. Western ave, just completed at a cost of $15,000 and owned and occupied by A. N. Marsulis consist of a spacious ground floor office room and a 6-room flat on the second floor.

The 75-foot frontage adjoining the new Marsulis building on the south has just been purchased by the Whitehead Brothers Auto accessories company. They are contemplating the erection of a building in the near future, plans for which are not yet ready for publication.

A number of similar office and store buildings, the two new banks, and the proposed Marquette Park hospital have already been reported in the Telegram, and innumerable homes are being erected. The end of 1924 will, it is believed, find in the aspect of the district many dissimilarities with the beginning.

## EVENING STUDENTS TO ATTEND OPERA

More than one hundred forty students and teachers of the Englewood Evening school, led by Principal William E. Tower, will attend the grand opera performance at the Auditorium theater Saturday evening, January 19. Through the courtesy of the management, the entire group will occupy box seats.

The undertaking is the result of co-operation between the student Booster association and the school faculty. The Boosters had planned an opera party and the faculty had planned a banquet for the evening, but it was determined all would hear the opera.

The south side evening school was reopened after the holidays with many new students. The new semester of the standard high school will commence February 4. As organized, the school consists of five departments, the standard high school, cooking, sewing, and millinery; shop and technical classes; business and commercial work; and English and naturalization classes for the foreign born. Both the standard classes and those for foreign born will continue until June.

## BURKE V. F. W. TO INSTALL ON MONDAY

Burke Post No. 177, Veterans of Foreign Wars, and the ladies' auxiliary, will hold a public installation ceremony at Prospect hall, 64th and Ashland, Monday evening, January 14, at 8 o'clock. # PHILLIPS SPLITS LEAGUE OPENER WITH LINDBLOM

## Heavy Quintet Upset, But Lights Win Easily

Lindblom heavies started off poorly in the high school league race Monday being defeated by Wendell Phillips [illegible] to [illegible] but Coach Farmer's lights split the bill by taking their half of the doubleheader by a 26 to [illegible] count. The games were played in the Phillips gym.

Phillips victory in the heavy contest was a surprise to the Lindblom followers. Lindblom was unable to hold Brookins and Spear, the home team's heavy scorers, and they continually broke through and dropped the ball through the hoop. Brookins contributed seven ringers to the victors' count and Spears counted four and a free toss. Phillips guarded the locals closely and only three baskets were registered from the floor, being divided equally between Cooper, Lecht and Cekal.

Lindblom's lights showed up much strongly than expected and led throughout the game. Conrad, Mulhall and La Beige were the principals in the offense and after they had Lindblom far in advance subs were sent in for a workout.

# PARKER BREAKS EVEN IN BASKET GAMES WITH LINDBLOM FIVES

### GREEN AND WHITE HEAVIES LOSE BUT LIGHTS COME OUT ON TOP

Parker's heavies were no match for the Lindblom squad at the Lindblom gym Thursday going down in defeat by a 14 to 5 score but the Green and White lights saved the day for Parker by trimming the home team, 21 to 1.

Both contests were one sided affairs. Lindblom led the heavyweight contest from the first jump and completely outclassed the visitors. Parker was able to register only one ringer from the floor and then other points came from free throws. Cooper and Donovan were Lindblom's mainstays. Both coaches sent in extra men for workouts.

Just as Lindblom led the heavy battle Parker came to the front in the point fray. Their first passing attack dazzled Lindblom and Captain Brooks and Fred Tell, Parker's deaf and dumb wizard, contributed generously to the winning. Mulhall with two ringers led all of Lindblom's scoring.

# PURPLE FIVES OPEN LEAGUE WITH VICTORIES

## Tilden Tech Twice Downed By Englewood Basket Squads

A twelve point rally in the third period gave Englewood heavies a 22 to 13 win over Tilden's last year's champs and the Purple ponies had but little trouble downing the Tech lights to make a clean sweep of the first league contests in the Englewood gym Monday.

Englewood's uncanny ability to cage the basket cost the Tech's hefties defeat. The game was hard fought throughout, with the edge always in favor of the Purple, except in the first period. In this session Tilden sank two baskets to Englewood's one. Tight guarding featured in the next round and neither squad could get more than a single ringer through. Then Englewood opened up and scored a dozen points and added to the count in the final frame with six tallies. Kaplan and Joe Murphy led in the scoring for the victors, and Pearlman did most of the work for Tilden.

Both coaches used nine men in the lightweight fray and both squads played a flashy game. Moellering was tightly guarded and was able to count only one free toss but his mates Bachich and Brucknei came to the front. The former sank five ringers and the latter dropped four. Five of Tilden's points were made by the free throw method.

# NEW FENCING CLASS AT LINDBLOM HIGH PROVING POPULAR

### TWO CLASSES NEXT SEMESTER AS RESULT OF SUCCESS FOR INNOVATION IN ATHLETICS

So popular has the Lindblom fencing class recently organized at the high school, become that membership in the group has been limited to sixteen persons, owing to equipment shortage. The new semester, starting in February, will see another fencing class organized, however, according to the instructor.

Interest in fencing has spread among high schools in the vicinity. Calumet high school included it in the athletic curriculum. Several Lindblom boys asked permission to organize for similar instruction at their institution.

J. R. Burke, Lindblom gymnastic teacher whose training has skilled him in the art of fencing was placed in charge of the new class. As equipment was limited, several students bought their own according to Eugene C. Woofer, 7832 Emerald ave., one of the youths enthusiastic over the innovation.

Small membership of the present class is also due to the fact that many who would have enrolled for the work had other classes at the hour that had been selected for fencing instruction, hence could not be present. The class is held Mondays and Fridays for 45 minutes at 1.05 o'clock in the afternoon.

Members are eager to develop Lindblom's fencing class to the extent that it will be eligible for team competition with other schools teaching fencing.

# DREXEL PARK TIES FOR FIRST PLACE IN CHURCH CAGE LEAGUE

### EARN COVETED POSITION BY TRIMMING JULIA GAY; IS LOOSELY PLAYED

By defeating Julia Gay, 24 to 7, Friday the Drexel Park squad went into a triple tie for first position in the Lindblom division of the church league. The game finished up the first round of the league play.

Drexel showed an improvement in their passing attack and constantly fed the ball to R. Hansen who led the scoring with four ringers. Gay played loosely, committing a total of eight personal bobbles, but their opponents were weak on the tosses from the free throw line and passed up six chances to score.

# PEREZ LOSES AGAIN IN K. C. BASKET RACE

Perez council lost another game in the Knights of Columbus league race Sunday at the Eighth Regiment armory, going down before the Loyola-Hyde Park quintet by a 25 to 14 count.

Fred Naleway, the locals mainstay, was out of the lineup and his absence was keenly felt. Loyola played a fast game and during the first session swept Perez off their feet. Perez trailed hopelessly behind, 10 to 2, at half time, and although they scored heavily in the second frame they were no match for their opponents.

McInerney and Egan, gridiron stars, made their first appearance in the Perez lineup, and although neither gained any laurels for heavy scoring they show promise of bolstering up the squad's play. Lotchford took the scoring honors for the locals and Kluctach was the main cog in Loyola's offense.

Auburn Park has an open date in their league schedule, but have arranged a game with the Holly Majors one of the best traveling teams in the country, whose lineup includes Nick Altrock and Al Schacht, world's series comedians, and a number of other athletes whose names are well known on the big league baseball diamond.

## "CAPTAIN APPLEJACK" ARRIVES ON SCREEN

Those who go to the theatre to see stars and those who attend to see a great story, will find both at the Hillside theatre, 1515 W. 69th st., Wednesday and Thursday, January 16 and 17, when Fred Niblo's "Strangers of the Night" opens.

All-star casts are sometimes discovered to be no-star casts but Fred Niblo assembled a group of players who were individually famous when he began production on "Strangers of the Night" for Louis B. Mayer and Metro.

For the role of "Captain Applejack," made famous in Walter Hackett's stage play from which "Strangers of the Night" was adapted, he selected Matt Moore. Miss Enid Bennett, remembered as Maid Marion in "Robin Hood," appears in the role of a demure little British girl, while Barbara La Marr is the spectacularly beautiful Russian adventuress. Robert McKim is again a screen villian, while such favorites as Otto Hoffman, Emily Fitzroy, Thomas Ricketts and Mathilde Brundage are exceptionally well cast.

"Strangers of the Night" is a mystery romance of adventure and love, told graphically against background of rare beauty. It opens in a mansion on the Cornish coast of England and leads from a drawing room to a pirate cruise and back before the unexpected climax is reached.

*Attack is the reaction; I never think I have hit hard unless it rebounds.*
*—Samuel Johnson*

**REACTIONARIES WIN**

You win! The two words are addressed to the reactionary element in Southtown which was responsible, either through definite opposition or lack of energetic support, for the fact that action on the Aberdeen st. sewer project was again postponed—this time not until next week or the week after, but until the city engineers can devise a way to build the sewer whereby the "back of the yards" district will not need to help pay. It is no matter whether or not a new sewer is needed there. The future of the district means nothing. The immediate payment of a comparatively small assessment is the all-important issue—and the sewer project was balked.

Which leads us to lament the lack of volume in the voice of approval that we have heard from the various sections throughout Southtown. We have sufficient faith in the foresight and general intelligence of our residents to believe that by far the larger majority favor immediate relief of the conditions that are retarding, more than any other one element, the growth of our district. But the general public is inclined to be apathetic to progress, whereas opposition to any movement, especially when the expenditure of money is involved, is militaristic.

Just how much the growth of Southtown has been retarded by Tuesday's action of the council committee it would be difficult to estimate. For, though the revision could, we suppose, be made in a few months, it is probable the delay will be much longer. And the worst part about the whole affair is that the way has been shown whereby a reactionary minority may block a measure for the general good. The plan may be revamped—and some other small section object and throw the entire project overboard.

But the improvement must come ultimately. That we have failed once must not mean that we quit trying.

**BETTER GOVERNMENT**

Our readers have heard more or less about the activities of the Better Government association through newspaper accounts. And we will have to admit that we are only more or less familiar with what its members—who represent, in cases where we are familiar with names of officers and members of the executive board, some of the best the city has to offer in the way of professional and business men—have been trying to do. The organization is non-partisan, they say, but whether or not it is, a phase of the fight they are waging to minimize election frauds strikes us as being eminently worthy of publicity and deserving of encouragement.

Co-operating with the election commissioners, they have had printed cards through the filling out of which it is hoped to create a file of names of efficient and honest men and women from which the polls may be manned on election days.

The card reads: "To the Board of Election Commissioners of the City of Chicago: Please enroll my name on the eligible list as willing to serve in my precinct in the capacity of judge or clerk of election in the interest of honest elections and good government." Blanks are left below for information about the signer.

While nowhere in West Englewood have election frauds been as flagrant as in some notorious precincts of the city, who will say the polls have been handled with absolute honesty in all cases? Perhaps absolute honesty is not attainable. Perhaps, as some maintain, election frauds are one of the evils that are always with us. Yet they can and should be minimized.

The average citizen is unwilling to serve at the polls. The days there are long and arduous, with inadequate remuneration. When appointing a precinct voting place force, the election board has no names to choose from but lists submitted by ward politicians. Sometimes they do not have even that much. Sometimes a several days' canvass of a precinct is required before a sufficient number who are willing to serve are found.

The purpose of the movement now under way is to recruit, through business houses and various organizations, volunteers for the work who are actuated by their interest in good government, rather than a desire to serve political interests. It is to the interests of the average citizen to have honest men elected to office honestly. It is the duty of the average citizen to do his part toward forcing the honest conduct of elections. The average citizen should be willing to sacrifice his business, or his pleasure, one day in the year and serve as an election judge or clerk.

**ANOTHER MOVIE SCANDAL**
By the Rev. C. C. Cox, Pastor
Drexel Park Church

A shot is fired in Hollywood that is heard around the world, only in this affair things are not quite as well covered up as on previous occasions. These intermittent flashes of fire from a gun are like those of a slow smouldering volcano. They tell of things within that are hid.

And we poor fools will sit and let it all go by, as though this group is to be excused from the laws of virtue, decency and modesty. We seem to think this type of people, because they are good looking and can make one cry or laugh at their own pleasure, are such that they cannot sin, a bunch of little gods and goddesses that are exempt from the laws that the average man and woman must keep. They can marry, divorce, live in free love nests, use drugs and drink, yet we must keep still.

The main one in this affair begs to withhold judgment until all facts are known. It will be to her own interest that all the facts will never be known. We do not need to go into details. A half dressed, drunken man with two girls is enough. Modesty is virtue and when a girl loses her modesty and respect for public opinion there is nothing else to lose. Of course, it will all be laid at the door of the mediocre man. But whatever may be his record, he is worth about as much to society as the type he tried to kill. And as to the girls, well, they are not an asset to the American womanhood of today.

This article is not written in prejudice nor blind narrowness. Every thinking person will realize it is time for theater going people to demand clean pictures and clean life by those who produce them. Our friend Hays is not the Czar of the movie world, but public opinion is. It was public opinion that took Fatty Arbuckle off the screen. Let these two girls pay the same penalty that any other girl has to pay who is found out. Their clothes or talent should not save them.

Now is the time for the American people to speak, to let all know that they must obey the same laws that all men and women obey, to speak a final word to Hollywood and its inhabitants that they will clean out their drugs, liquor and free love escapades. They will either clean them out or we, as an American people, will clean them out.

A rather unique celebration was the combined double birthday party and housewarming in the form of a surprise for Mr. and Mrs Alexander Trench, 6432 Bishop st, Sunday evening, January 6; when a party of their friends arrived unexpectedly with gifts and refreshments. The occasion for the housewarming was the moving of the Trenches from their apartment at 6432 Bishop st, to a larger one at the same address two days previous. As Sunday was the birthday of both Mr. Trench and his near neighbor Joseph Reis, it was decided to celebrate the two together and the surprise party was kept a secret from Mr Reis also.

Owing to the extremely cold weather, only fourteen of the thirty guests invited were on hand to meet at the Reis home, 6463 Laflin st, and go in a body to the party. HOME VALUES

Good old Ben Franklin stated a truth that applies to the present generation with tremendous force:

"I never saw an oft removed tree,
Nor yet an oft removed family,
That throve so well as those that settled be"

The family that owns its own home is without question more prosperous than a family that does not. There is a certain solidarity in anchoring to a piece of mother earth that entirely changes the outlook of a man's life.

## WELL KNOWN LAWYER IN RACE FOR CONGRESS

I am a candidate for the Republican nomination for Congress from the third district to be voted on at the April primary.

I believe that good government is based primarily upon honesty of purpose, intelligently guided with the will and courage to carry it out.

I believe that Congress should reduce the heavy burdens of taxation equitably and fairly. This can be done by strict economy without sacrificing our obligations to our soldiers in their demands for adjusted compensation. We should employ the same standards of economy in spending public money that prudent citizens use in their private affairs.

I believe that better government is obtained when civil service is faithfully applied.

America must meet her world obligations but without sacrificing her independence of action.

Frank P. Sadler

We should help to create a world court of justice so constituted that America and all other nations can with confidence submit to it all justiceable questions.

Congress should work unceasingly to assist agriculture, labor, industry and business in general, in such a way that all of our people will get a fair price for their labor or product and share in the general prosperity.

America must stand for law and its enforcement. To do otherwise, is to invite anarchy and chaos.

I favor a constitutional amendment to eliminate child labor as practiced in some states.

Tax exempt securities should be abolished by the same method.

Immigration should be restricted to those in good health who are in sympathy with our institutions and whose character is a guarantee that they will become law abiding American citizens.

My twenty-five years as a practicing lawyer, including a term on the municipal bench and service in the state senate, should, in a measure, qualify me for service in Congress.

Very sincerely,
FRANK P. SADLER.

The Legislative Voters' league in a recent report reviewing the work of the members of the General Assembly, says of Senator Sadler's record: "Hard-working and courageous; one of the strongest opponents of undesirable measures put forward; indefatigable in his efforts to hold down tax rates. Introduced a bill which became a law requiring elective state officials to pay collections into the State treasury more promptly, thus disturbing an ancient so-called 'legitimate graft'; has served the public faithfully."—Adv.

# Sends Feathered Champion to First Lady

Lohengrin, famous prize winning roller canary, achieved further distinction last week when presented to Mrs. Calvin Coolidge by Joseph Wolf, 6631 S. Honore st., owner of the bird which was awarded a silver cup in Chicago last year, and which distinguished himself additionally in 1923 as a year-old triller.

Singing is a family talent of the Lohengrins. His father was a Seifert strain songster of noted range. Lohengrin's son also brought fame to the tribe name by accompanying Miss Florence Macbeth with his canary quartet when she sang grand opera over the radio at the Sherman hotel bird show, December 5.

The junior Lohengrin was champion at the Cleveland bird show and took first prize in team class five at Cincinnati, Ohio. In Kansas City, Mo., his team was given second prize. Here a bird known as 2519 was the star singer of Mr. Wolf's entrants.

So popular is Lohengrin, junior among bird fanciers, that Mrs. Buchanan, a Forth Worth woman recently made a special trip to Chicago to buy him. She had heard him in the south. Mr. Wolf declined to sell, as he had in the case of the bird's father when breeders sought him at a dazzling price.

She remained for three days in the city inspecting the 562 registered Seifert birds at the Wolf Englewood bird farm and returned home without the bird, who has sung with his group in seventeen states and thirty-seven cities and has been featured over the radio.

Prizes of the feathered songsters are awarded by the International Roller Canary Breeders' association.

Six silver cups are the property of Mr. Wolf, representing awards from bird shows in all parts of the country. Entered against his rollers, foreign entrants have returned to their breeders without honors. He has four diplomas, four medals and nine ribbons his birds have won. One of his teams was given a total of 186 points.

His own love of music led the man to an interest in birds. In Bavaria he had studied the zither. He found more lucrative pursuits in this country. When he gave up former studies of his instrument, he concentrated his attention on birds and their songs. He discovered he could train canaries without any means other than his own knowledge of range and harmony. Five years ago he stocked his cases with a few good birds. From these his present supply has been bred.

Each of the yellow singers, in the cages at his home, has a family tree.

The top floor of the house is converted to sanitary quarters for more than 100 canaries. Their chief food during the winter is black rape imported from Germany by a New York dealer. Mr. Wolf has found the German variety for more satisfactory than rape raised in England, Russia, or France. The birds dies is simple at this time of year. Their diminutive baths are filled with water and are not limited to Saturday night only. The breeder has found canaries healthier when permitted to bathe at will. Their community cases are kept in a fairly low temperature to make them hardy. Rarely is a bird sick at the Wolf hatcheries.

They are maintained in good singing form by remaining in darkened cases. Light enables them to see each other and chatter away on the many topics which interest them. One hears notes suggestive of gossip, anger, happiness and greed. Seldom are the birds frightened, however. They know Mr. Wolf and he accompanies his visitors to cages so his little charges will not be alarmed by strangers.

Curiously, it seems, to one unfamiliar with birds, epilepsy is frequently induced when they are frightened. It is a malady from which they rarely fully recover.

Foreign trainers of canaries often resort to the mechanical bird organs, Mr. Wolf said, to cultivate their birds' scales. This is not the method of Mr. Wolf yet his singers have won points on the following: range, hollow roll, bass, glucke, roll, water glucke, hollow bell, shockel, bass water, toures, flute notes, bell roll and general notes.

It is his contention that a man must have an innate love of birds if he is to meet with any great success in their rearing. When mating birds he chooses a male and female whose tones are not identical. Two tones in the same key do not produce rollers. Lohengrin is the father of four.

Young birds are a few days old when bands furnished by the secretary of the breeders' association are slipped on their legs. Each band has on it a registered number for the bird's identification. Records of each are kept.

There are not names enough to go around for each member of the Wolf bird family, but the favorites have such well known appellations as "Babe Ruth," "Lohengrin, Junior," "Big Ben," "Coolidge," and "Whizz Bang Billy." The first four mentioned are the quartet members which have been on tour singing.

Next month Mr. Wolf expects to send birds out again. They travel in special cages grouped together within a larger wooden box and are stocked with provisions before leaving home. Each cage is numbered.

The colony at the Wolf home is well worth a visit. There one sees a group rated among the best in the country and studies individual traits and special abilities that go to make prize winning warblers.

### MANY IMPROVEMENTS AT SOUTH WEST COAL AND MATERIAL COMPANY PLANT

Some $30,000 has just been spent in the improving of the South West Coal and Material company's plant at 59th st. and Seeley ave., according to Al Ronan, treasurer and general manager of the concern.

One of the main improvements made was the concreting of the yard. How essential was this improvement could be easily seen when the men were laying the concrete. Coal dust and particles were found ten and twelve inches in the ground. The new covering should result in quite a saving to the concern.

A much needed 5-car garage has also just been completed. The building is steam heated and is thoroughly modern in every respect. The garage will be occupied by three old trucks and two brand new ones, one a Mack and the other a White. Each was purchased at an expense of about $7,000.

These new trucks surely came in handy during the cold spell, and their tremendous capacity was largely responsible for the fact that Mr. Ronan was able to take care of every call during the cold snap.

### HERTEL INSTALLS NEW ELECTRIC SIGN

Hertel, 63rd and Marshfield, men's wear store, just recently installed a wonderful new electric sign. It is, beyond a doubt, one of the finest in the neighborhood. A few more like it would brighten up the neighborhood considerably.

## BUSINESS WOMAN'S HOBBY FOR COOKING WINS HER PRIZES

### PASSION FOR EXPERIMENTING LEADS TO ORIGINATION OF MANY RECIPES

Hundreds of recipes, originating in her housewife days, have helped Jean Patti, now a business woman in a West Englewood bank, to harness her hobby so it wins her weekly prizes in competitive cookery contests conducted by Chicago dailies and household magazines.

Thirty years over the cook-stove opened new vistas to this expert housewife, where another woman might have discovered only slavery to pots, pans and appetites.

Novel methods of creating nourishing dishes are worked out painstakingly, as a student might study to solve a difficult problem, with the result that she has compiled more than 200 new formulas for the preparation of food-stuffs. Travels in Scotland have added many recipes from foreign lands to her extensive supply, gained without special scientific training.

"It was second nature for me to cook when other little girls were playing mud pies," explained the resourceful originator of a certain angel-food cake, famous for its flavor and fluffiness, as she worked at her desk as statement clerk.

"I liked to 'mess around' in the kitchen, as my mother used to say, and was never content with the meager suggestions of the established family cook-book. Later, when I married, I frequently sent a sample of a new dish to my neighbors. They asked for the recipe and tried my methods of combining materials for cakes and puddings," she said, unconsciously expounding the theory that imitation is the sincerest form of flattery.

"One friend told another of my interest in cooking and they soon began to telephone me for suggestions for club entertainments or family dinners. It was a pleasure for me to help them. Additional pleas for assistance made me hunt new ideas for successful menus, so I increased my knowledge for my friends' benefit.

"My idea of a good time was experimenting with a few materials to produce the best dishes from the least materials. I have heard people boast of making fancy layer cakes as if it were a rare accomplishment, even when they had an entire afternoon and an unlimited budget for the task. That does not make a woman a good cook. The most efficient housewife is the person who makes in a short time a palatable combination of foodstuffs from a limited supply of material. The simplest food is always the best."

Interest in culinary arts is growing among young women and girls, contends Jean Patti, who is known in business life as Mrs. Jean Larkin. She is frequently solicited to give them advice in cooking. Also her supply of household hints for making work in the home easier, is extensive.

One magazine to which she had contributed years ago was sufficiently impressed with her work to offer her the editorship of the cookery department of the publication. Those were the days when married women confined their activities closely to the home. She declined because of domestic responsibilities. Since then her son has married and she has become a widow. The care of a seven-room apartment is minimized.

She has determined to extend the field of her culinary hobby. When her day's work is done, she returns to her home, 2734 Calumet ave., to write prize-winning recipes and concoct other toothsome innovations.

In her experience with cooking, she has noted the increasing change in menus used by the average home. Heavy, rich foods are being replaced by equally nourishing, but more easily digested items. Salads have become indispensable on the American table. The housewife has awakened to her responsibility as the guardian of her family's health. Malnutrition, calories, and vitamines have an importance outside the dictionary.

As a neighborhood authority in housewifery, Jean Patti preaches against waste of cooking materials, but she believes a woman should have every aid she can afford in preparing her meals.

"A carpenter cannot build without saw and plane; why should a cook mash potatoes with a fork because her mother had no masher?" she asks.

Strict adherence to a cookbook, however good, does not help one reduce the cost of food, says she, because most menus in them are compiled for "better than average" purse. The young bride's salvation is the recipes in the newspaper rather than those in some work on cookery. Unless submitted contest recipes are economical as well as tasty, they are eliminated from the household department of a publication. Jean Patti does recommend that novices in culinary art cultivate the practice of accurate measurements to standardize the quality of their cooking. She points out the wisdom of experimenting to produce new dishes but emphasizes the regular meal cannot be made perfectly if cooked by guesswork and haphazardly planned.

Since her obligations to her home have become limited, Jean Patti intends to contribute regularly to various household magazines specializing in cookery corners.

## EARLE KIDDIES LEARN ABOUT TEETH CARE

Missionary pamphlets containing information as to the care of the teeth have been distributed at the Earle school, that pupils there may gain information for the proper attention of their younger sisters' and brothers' molars. The literature is disseminated through the Chicago Department of Health.

One of the points emphasized in the bulletins is that no tooth powder, tooth paste or mouth wash ever manufactured will destroy germs or neutralize mouth acids if washed from the teeth immediately after its application to them. It advised that a small quantity of the dentifrice be applied with the finger to the teeth and on the gums. This should remain on the molars for at least three minutes before it is rinsed off.

Children are taking an increased interest in this branch of hygiene and teachers at the school are keeping them well supplied with literature on the subject.
